

## CAPABILITY STATEMENT

# Capability Statement

The full reliability toolkit, under one accountable roof.

---

**CORE CAPABILITIES**

- Route-based vibration analysis to ISO 10816 standards
- Infrared thermography surveys (electrical & mechanical)
- Airborne & structure-borne ultrasound inspection
- Oil sampling, analysis and lubrication programme design
- Laser shaft alignment and on-site dynamic balancing
- Lifting-gear inspection, proof load testing & certification
- Instrument calibration with traceable certificates

**DELIVERY MODEL**

Scheduled monitoring routes or once-off diagnostics, on your site, with a prioritised action report ? never a raw spreadsheet.
