

COMPANY PROFILE

Asset Reliability Services

Precision maintenance & condition monitoring ? Harare, Zimbabwe

WHO WE ARE

A Zimbabwean reliability-engineering company serving mining, manufacturing and construction. We read machines before they break and turn unplanned downtime into planned, costed action.

WHAT WE DELIVER

- Condition monitoring: vibration, thermography, ultrasound, oil analysis
- Precision maintenance: laser alignment, dynamic balancing
- Lifting equipment inspection & load testing
- Calibration services and reliability training

WHY IT MATTERS

Predictive, condition-based maintenance gives our clients a genuine edge over anyone still waiting for things to break.
